MILWAUKEE IS LOSING \$10,000 DAILY BY A LAW

WOULDBE BRIDEGROOMS DO NOT TAKE KINDLY TO WISCONSIN'S NEW MARRIAGE LAW

MILWAUKEE, Feb. 4.—A wedding "famine," caused by Wisconsin's new eugenic marriage law, is costing this city which has a population of nearly 400,000, \$10,000 a day, according to estimates of merchants and others who supply the wants of newlyweds. The law, which became effective the first of the year, provides that all would-be husbands must pass a health test, the examination to be conducted by a reputable physician. Evidently the young people do not approve of this kind of legislation. Most of those who are getting married are going out of the state, though the law says they shall not do it, and are having the knot tied in nearby cities, Chicago attracting a great many of them.

The average rate of rent paid by newly wedded couples in Milwaukee is \$18 a month and landlords are losing \$450 a day. The coal men are losing \$400 a day. The daily expenditure for furnishings for each flat is estimated at least \$300, and the most featherers are losing \$7500 daily. The grocery man is losing \$150 a day and \$250 in ministers' fees are going by the board every day. Clothing merchants are losing \$625 daily by not selling "glad rags." Seven hundred and fifty dollars a day is the estimate of the loss of the brides' "acenery."

Add to this items for photographs, flowers, wedding trips, carriages, musicians and decorations and the daily loss is quite a bit above \$10,000.

FROZEN TO ENGINE.

TRAMP IS RESCUED

TRENTON, N. J., Feb. 4.—With his clothes covered with ice, Harry Steele of Philadelphia was saved from death when a New York-Washington express train was flagged at the main station here and he was dragged from the engine tender. He was stealing a ride to Philadelphia. When the train passed a watering trough at Elizabeth his clothing was covered with water, which immediately froze.

TIPPING TRUST'S CHECK BOYS GO OUT ON STRIKE

SUBSTITUTION OF GIRLS "FOR STRONGER APPEAL" IS CAUSE OF ACTION

CHICAGO, Feb. 5.—Thirty boys, employees of Jacques Roussio, head of the so-called "tipping trust," which rents the checking concessions in hotels and cafes, struck because Roussio had substituted girls for some of their number. The employment of the girls, the boys said, was in hopes of making a stronger appeal to the hearts of cafe patrons. The tipping business, the boys said, has fallen off as a result of publicity. Patrons who formerly gave freely began war on Roussio when they learned from newspapers that tips given to check boys eventually found their way in Roussio's pockets, the boys having no pockets. Roussio employed ten girls last week. They wear special uniforms with no pockets and with extra tight collars.

The boys demand \$2 a day salary and reinstatement of the boys dismissed to make places for girls. Fifty more boys intend to quit work this week, they said.

Roussio controls most of the check rooms in Chicago and many in other cities.

POOR WINTER FOR WOOD CHOPPERS

LONE MOUNTAIN GIVES WAY TO BUY FUEL FROM SILVER PEAK

Wood choppers complain of the open winter which has been bad for their business, which has been steadily declining since the use of coal has become more general. The chopping ground has been moved from the country back of Millers to the Silver Peak district, where there is plenty of scrub oak and jack pine for years to come. This is hauled to the cars of the Silver Peak railroad, which carries about twenty cords, and then are sent around by the Tonopah & Goldfield railroad to Tonopah. Formerly all the wood coming to this market was cut in the vicinity of Lone Mountain and packed down the trails on the backs of mules, then hauled by wagon to Millers and loaded on flat cars. This proved too expensive and was abandoned when coal consumption forced a reduction in price. Tonopah uses seventy-five cords of wood a week.

CONSPIRACY OF STEEL COMPANIES TO GET CONTRACTS

CONGRESSMEN SAY EXPERTS FIX FIGURES TO PLACE GERMAN SECOND

WASHINGTON, Feb. 4.—Experts of the navy department juggled statistics in the navy year book for 1913 to make the American navy appear inferior to the German navy and thereby set the United States down from second to third place as a naval power, was charged by Representatives Witherspoon of Mississippi and Hensley of Missouri, members of the house naval affairs committee, today.

Secretary Daniels was before the committee to explain the naval program the coming year, and in their questioning the congressmen brought out that there are three battleships, the Oregon, Massachusetts and Indiana, which have the same tonnage, but heavier armament than ten listed German battleships, which are left out of the United States list altogether; that the year book, instead of giving the United States 36 battleships, built or building, as compared with Germany's 39, should have credited the United States with 39 of heavier total tonnage and armament than Germany.

And in accordance with law, and an order of the Board of Directors made on the 23d day of December, 1913, as many shares of each parent or such stock as may be necessary, will be sold at public auction, at the office of the company, Room 245 Russ Building, San Francisco, California, on Tuesday, 2d day of March, 1914, at the hour of 2 o'clock P. M. of said day, to pay delinquent assessments thereon, together with costs of advertising and expenses of the sale.

CHARLES D. OLNEY, Secretary.

Office, Room 245 Russ Building, San Francisco, California.

LOCATING OF MINE NOT PROOF OF LODE

UNITED STATES COURT OF APPEALS RENDERS IMPORTANT DECISION

SAN FRANCISCO, Feb. 4.—Locating a mine without actually trying to open it up and find out what is under the surface does not prove the discovery of a mineral lode, or, in fact, the existence of it at all. That is the basis of the decision of the United States circuit court of appeals, in affirming the decree of the United States district court of Montana, in the case of Thomas D. Thomas versus the South Butte Mining company.

The original suit was brought to quiet title to some Montana placer ground, and Thomas claimed to be the discoverer, because of prior locations. The courts held against him, there being no evidence that the prior locations had not been abandoned.
